This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 to 15, drawn to a graft copolymer.

Group II, claim(s) 16 to 21, drawn to a process.

Group III, claim(s) 22, drawn to a graft copolymer.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims are unrelated and do not have any overlapping, corresponding or similar features. These claims are independent and drawn to different inventive concepts.

3. The inventions listed as Groups II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The process in claim 16 is not novel and/or unobvious (see for instance the working examples starting on column 12 of US Patent 5,188,899) and as such cannot be considered a special technical feature.
